**eDrive Academy!** a continually evolving web platform of the Ministry of Infrastructure, Transport and Networks for Road Safety issues.

This web site will provide a comprehensive education program and lifelong learning, adapted to every age.

The training modules, starting from the primary and secondary education, for elementary school students, junior high and high school, targeting to the early acquisition and methodical handling of driving knowledge, gradually hatching consciousness on the safe and eco-driving.

It is suitable for education of all types of drivers, in agreement and in the context of the current training by driving schools.

The educational programs addressed to young people, beginners, seniors, professional drivers and drivers with disabilities, in order to respond to all possible categories of the population.

Also, it is provided a training package to the driving instructors, as well as support of teachers and professors (primary and secondary education) with similar teaching guides.

The aim of e-Drive Academy is the citizens to gain the necessary knowledge for safe and eco-driving awareness and also to apply this knowledge for their driving behavior. We can achieve the most reliable and efficient knowledge transfer, by providing to the education community (school teachers, professors and driving instructors) the required supporting teaching material.
