

SEAT is at the top of the Latin NCAP's safety ranking

SEAT reached the highest possible rating (five stars) in the Latin NCAP's safety ranking for car manufacturers. The Latin-American reference organization for evaluating the safety of vehicles in this region again proves SEAT's commitment to offer the same level of safety to our customers, regardless of the country of distribution. The ranking is based on the average of 18 car manufacturers' results regarding safety of adult and child passengers the Latin NCAP has reported since its establishment in 2010. In the case of SEAT, the organization evaluated the León in July 2013 and the León ST in April 2015. Regarding adult passengers

Mario Hurtado, responsible for Development in passive safety, receives the award from the Latin NCAP.

(driver and co-driver), the León ST reached the highest possible rating. The car's structural performance and the standard equipment of six airbags have been remarked. Also, the highest possible rating regarding child occupant's protection was reached which goes along with the SEAT León ST's aptitude for families. Crash tests demonstrated good protection of

children and furthermore, the vehicle disposes of a reliable child seat system.

After evaluating more than 60 car models, the Latin NCAP placed SEAT at the top of its safety ranking, together with Jeep, as best choice in safety for motorists in Latin America. //

SEAT LEON ST + 6 Airbags

TECHNICAL SHEET

14.71 max. 17.00 - Adult Occupant

43.39 max. 49.00 - Child Occupant

CAR DETAILS

Tested model: SEAT LEON ST LHD

Year of publication: 2015

Made in: Spain

Body type: 4 door Hatch/SW

Crash test weight: Kg 1551

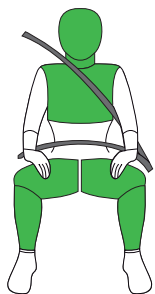

Test valid for: Latin NCAP market

SAFETY EQUIPMENT

Front seatbelt pretensioners	YES	Driver knee airbag	NO
Front seatbelt pretensioners pass	YES	SBR	YES
Driver frontal airbag	YES	ABS	YES
Front passenger frontal airbag	YES	ISOFIX anchorages	YES
Side body airbags	YES		
Side head airbags	YES		

ADULT OCCUPANT PROTECTION

FRONT PASSENGER

DRIVER

PROTECTION

- GOOD
- ADEQUATE
- MARGINAL
- WEAK
- POOR

SIDE IMPACT TEST (UNECE 95) *

Performed - Pass 2013

CABIN STRUCTURE

STABLE

COMMENTS

Adult occupant: In the frontal impact the driver and passenger heads were both well protected by the driver and passenger airbags. Both seatbelts were equipped with pretensioners and load limiters. The driver and passenger knees areas did not show critical structures. The bodyshell was rated as stable and was capable of withstanding further loading. The model could comfortably meet the requirements of the UN95 side impact test.

CHILD OCCUPANT PROTECTION

Dynamic score: **14.39** (max 16)

Installation score: **12.00** (max 12)

Vehicle assessment score: **17.00** (max 21)

CHILD RESTRAINT SYSTEM

	CHILD RESTRAINT	DYNAMIC SCORE	CRS TYPE	ADJUST	POSITION
18 month old child	Romer Babysafe 0+ ISOFIX BASE	8.00 (8 max)	0+	ISOFIX	RWF
3 year old child	Romer Duo Plus 1 ISOFIX	6.39 (8 max)	1	ISOFIX	FWF

COMMENTS

Child occupant: The Isofix child seat for the 3 year old child and the 11/2 year old child were able to prevent excessive forward movement during the impact and protected both child well. The CRS installation achieved full points considering the exempted positions and presented a clear installation guide in the manual. The vehicle had warning labels explaining the hazards associated with installing a rearward facing child seat on the front passenger seat with an active airbag. Passenger airbag disconnection is possible with a switch properly marked.
