

# ROSEE

ROad safety in South East European regions

## WP5 International Conference

### “SAFE ROAD USERS”

## AGENDA

11/06/2014

## University of National and World Economy, Sofia, Bulgaria

ROSEE supports governments both at the national and regional level in South-East European regions to improve coordination in promoting, planning and operation of primary and secondary road networks, with an emphasis on improving traffic safety performance and network accessibility.
